

On-Board Weighing

TT Weigh

A trailer weighing system for
hydraulic tipping trailers

Fast and easy weight indication

Rugged and waterproof

Compatible with all tipping trailers

Suitable for all tipping trailers

Audible alarms and flashing alerts to prevent overload

Quick and easy installation

Weight Monitoring Made Easy

TT Weigh is an operator friendly display that is suitable for weighing product on agricultural trailers. Using a sensor to measure hydraulic pressure in the system, TT Weigh informs the operator of load as a 'calculated' weight in tonnes, kg or lbs. In addition, when approaching and at the point of overload, an internal alarm will sound to further inform the operator of load status.

TECHNICAL DETAILS

Operating voltage	10 – 30 Volts DC
Sensor range	0 - 250 bar
Temperature range	-20 to +40°C operating
System accuracy	+/- 3% of trailer capacity
Env. protection	Instrument unit: IP67 Sensor: IP65
EMC	2014/30/EU, ISO 14982

Also in the range:

WEIGHLOG α10: An advanced on-board weighing system for compact and smaller wheeled loaders.
